For those attending in person, please meet on the 16th floor of our building, rather than the 17th floor. I have secured a conference room, though it is smaller than the one we usually use.

Lauren,

For tomorrow's meeting/call at 10:00 a.m. e.s.t., there will be a small contingent of PRP representatives (3-4 persons) attending in person at EPA's office and the rest will be participating by conference call. I don't have a precise list of every person who will be attending in person or on the phone, but all of the private and public parties (excluding Plaza East) have indicated that they will be represented. We can do a roll call at the beginning of the meeting. I assume the call in number below is still correct. Attached is a PowerPoint presentation which the PRPs propose serve as the general agenda of issues to be discussed. Please let us know if you need anything further. Thanks.

David

Lauren,

I believe the morning of Wednesday, June 10th will work for everyone. How about 10:00? I suspect that the majority of people will be participating by teleconference, but we will provide you in advance with a list of those attending in person and those by phone. We will also provide you with a list of issues we would like to discuss. Thanks.

David

Lauren,

The companies and governmental entities believe that it would be helpful to set up a meeting/call with EPA to discuss the latest draft of the AOC and related LLC OU issues. However, the first available time when the majority of representatives are available to meet/conference is early June. If you let us know what dates would work for EPA in the first two weeks of June, the PRPs should be able to make one of those dates work. We will provide EPA in advance with an agenda of topics the companies and governmental entities would like to discuss. As for technical issues, EPA should continue to coordinate with Nelson Olivarria and John Wolski in setting up a time to meet to discuss the SOW and related issues. Thanks.

David

Following up on the latest draft for the AOC. When does the group anticipate having comments for EPA? Would a call be helpful?

Hello All,

I apologize for the delay in getting you the next draft of the AOC. Attached is a track-changed version of EPA's original draft plus the comments we have accepted from the Group (and a few additional changes that EPA has made on its own). Please review and let me know if you feel a call will be helpful to move this along.

Regards,

Lauren Charney
